Information

# BACKGROUND

Nine years ago, the Ministry of Science, Research and Arts Baden-Württemberg, in cooperation with the European Danube Academy, launched the International Danube Conference on Culture series to intensify the cultural-political dialogue and to establish a permanent international platform for the cultural scene in the Danube region.

The conference was first organised in Ulm in 2013, and returns now after Novi Sad, Timișoara, Ruse, Pécs, Linz, Regensburg and the Schallaburg to Ulm.

This year, the conference brings together creatives, experts, and decision makers from the entire Danube region to network the diverse international cultural sector and demonstrate our solidarity with our friends in Ukraine.

## Let's stay strong together!

The aim is to enhance the discourse about freedom and culture, to establish contacts, present projects and to inform about developments and opportunities in the cultural sector in the Danube region. Solidarity and resilience building will be treated as horizontal themes.

# PROGRAMME
